What to do if you do not receive your wire

Domestic wires should arrive within 1 business day from the time they were sent, if a wire arrives at our partner bank after 3:00 pm EST it will be processed the next business day.

International wires may have a longer processing time depending on where they are coming from and the currency exchange they need to go through. Please allow 1-4 business days for international wires to be received.

In the event that a wire is not received please contact the sender and request the following information from the sender's bank. This information will be required for Novo to assist with any wire concerns.
